

A DISGRUNTLED JOURNAL.

Nothing is more exasperatingly amusing to regular sagebrushers than the ludicrous howl now being made by the Enterprise because it is not consulted in the management of the Silver party.

The present Enterprise is the youngest paper in the State, for the old Enterprise that died some years ago still lies in its honored grave a sweet and pleasant memory to old Nevadans—yet it endeavors to speak by the card and howls like a cross child when the milk bottle is taken from its mouth.

The imported talent now struggling with the problem of running a gold bug paper in a silver community, seem unable to master the fact that the Republican party is as dead as a door nail in Nevada and that the resurrected Enterprise inherited the name but not the prestige of its deceased progenitor.

How the Silver party makes its appointments and what particular counties are honored with appointments are matters entirely at the disposal of the Silver party of Nevada for several good and sufficient reasons, and about the only reason we propose to mention just at present is the fact that at the last election the Silver party had a majority at the polls of the votes cast by the people of Nevada.

We would suggest to the Enterprise that the shortest way to get control of the official patronage of this State is to amend the Constitution so that none but gold bugs, corporation lackeys and Republicans can hold office in Nevada. It will take at least four years to accomplish this result—and it may take longer.

REPUBLICAN ECONOMY.

If the Enterprise is anxious to trace up a chance to save the State Treasury \$250, let it investigate the fraudulent claim of Tremmor Coffin, Chairman of the State Central Republican Committee. He has a bill before the Legislature for \$250, for alleged services to the State in the case of Lincoln county vs. the State. The case was defended, as the law provided, by Attorney General Torreyson, but Coffin was wrong in on the State as an assistant, under the hollow pretense that his legal services were required, but really for the purpose of reaching into the Treasury for \$250 which did not belong to him.

The case, which will be fully discussed by the APPEAL at the proper time, affords the great reform journal of the Comstock a fine opportunity of getting in and protecting the State Treasury.

The bill has about the rankst smell of any little job placed before the Legislature for many years.

Licensing Vice.

The Sacramento Bee is making its biennial fight to have gambling licensed in this State. When such a law is enacted, let us have it broad enough to license three-card monte men, bunco steers, gold brick fakirs, prostitutes and abortionists, and thus get a big revenue from vices and crimes that cannot altogether be suppressed, but that the welfare of society demands shall be kept in as close check as possible.—Fresno Expositor.

The Expositor came nearer stating a sensible thing than it probably intended when it printed the above. As between licensed and unlicensed vice, experience in other countries has taught the lesson that the unlicensed is the most to be feared. There are three things that no nation on earth has been able to control. Drinking, gambling and prostitution. In countries where these three evils are licensed the State makes vice pay toll to it treasury and the money goes to educational purposes. In Nevada the gaming licenses help run the schools. Legislation cannot make people good, but it can tax the self-indulgent.

The Francis Bill.

Assemblyman Francis of Humboldt has introduced a bill in the Assembly providing for the publication of a daily journal reporting the daily proceedings of the Nevada Legislature, said publication to be issued from the State Printing office. This is a good bill and should pass by a unanimous vote. It has a great many good features, principally among which is that these papers are to be delivered free of charge to all voters in the State, thereby enabling the people to know exactly what their representatives are doing.

The old gang of Republican bosses who train under the lead of Tremmor Coffin and the V. & T. R. R. Company are endeavoring to get things in such a shape that they can elect A. C. Cleveland U. S. Senator in order to punish John P. Jones for leaving the outfit in the lurch last fall.

Their main plan is to discredit everything the Silver Legislature does and raise a hue and cry for political

purposes to use two years from now. The statement that the R. R. Childs have declared that in their opinion it is not improbable that silver will again be higher than gold on the legal ratio will excite surprise. Still stranger things have happened. For many years after the discovery of gold in California and Australia silver was higher than gold.

The Republican papers which have been raising a great howl that Assemblyman Francis of this county would be unseated because he was formerly a Republican, must feel pretty cheap. But as it is in line with all of their political predictions they have no cause for taking this particular failure to heart.—Silver State.

The Silver party also seated a Republican whose seat was contested by a Silver man. Imagine the fate of a Silver man asking for a seat in the House when the Republicans had a majority.

The cruiser Philadelphia which was supposed to be the crack of the navy for speed, is a failure. In the run from San Francisco to Honolulu she only averaged about nine knots an hour and was beaten 48 hours by the Australia. On her trial trip the Philadelphia was reported to have averaged 18.7 knots, which shows that in some manner a big swindle has been perpetrated on the government.

The APPEAL is often pained and astonished at the gross ignorance of oriental methods of warfare displayed by our contemporaries. The Sacramento Bee, usually a well informed paper, speaks of the Chinese fleet being "wiped off the earth." It probably meant that it was wiped off the water.
